

K-Love is a wonderful positive, encouraging radio station that I would terribly hate to lose. It is a wonderful uplifting radio station. It doesn't have all the negativity as some other stations do. It has had a wonderful positive effect on me and the way I go through the day. I can focus on good positive things instead of the depressing, negative thoughts that some other songs portray. I love the pleasant attitudes the DJ's have and the wonderful blessings I get from being able to pick up their station. Please don't let us lose their wonderful radio station! Thank you!
